

AMENDMENTS TO THE SPECIFICATION:

Please amend paragraph [0030] with the following amended paragraph:

[0030] The product can be provided with a fastening member for fastening the product in a pair of briefs. Expedient fastening members are, for example, adhesive, ~~VELCRO®~~ Velcro® fastening surfaces, friction linings, or the like. The fastening member can further comprise side flaps or wings, which expediently are arranged on the rear section of the product. Such side flaps are folded around the crotch of the briefs and fastened to the briefs, or one against the other.
